#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, “the lid”, “the periphery”, “the opening”, “the reverse direction”, “the area” have no antecedent basis.

The numerals in the claims must be placed inside parenthesis.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 5 is rejected under 35 U.S.C. 102(b) as being anticipated by Waugh (5123753).

Waugh teaches a bag having at its periphery a plurality of loops 30 capable of the intended use as claimed.

5. Claims 5 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Schachter (4606070). Schachter teaches a bag having at its periphery a plurality of elastic loops 66 capable of the intended use as claimed.

***Claim Rejections - 35 USC § 103***

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Fevre (672173) in view of Aupke (3526921). Fevre teaches a trunk having a handle comprising a plurality of spaced hooks 14. The hooks are capable of the intended use as claimed. Fevre meets all claimed limitations except for the wheels. Aupke teaches that it is known in the art to provide wheels 8. It would have been obvious to one of ordinary skill in the art to provide wheels in Fevre as taught by Aupke to move the luggage easily.

8. Claims 1, 3, and 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Downing in view of Aupke. Downing teaches a trunk having a handle comprising a plurality of spaced hooks h. The hooks are capable of the intended use as claimed. Downing meets all claimed limitations except for the wheels. Aupke teaches that it is known in the art to provide wheels 8. It would have been obvious to one of ordinary skill in the art to provide wheels in Fevre as taught by Aupke to move the luggage easily.

With respect to the hook on the lid, it would have been obvious to one of ordinary skill in the art to provide the hooks h on the lid portion of the luggage v to provide the desired place for the hooks.

Regarding claim 3, the distal end portion of the hook and Downing has a barb portion.

Regarding claim 4, note the through hole at the distal end portion.

9. Claims 1, 2, 3, and 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Smith (3319744) in view of Aupke. Smith teaches a trunk having a handle comprising a plurality of spaced hooks 36 (Fig. 11), 75 (Figs 18). The hooks are capable of the intended use as claimed. Smith meets all claimed limitations except for the wheels. Aupke teaches that it is known in the art to provide wheels 8. It would have been obvious to one of ordinary skill in the art to provide wheels in Fevre as taught by Aupke to move the luggage easily.

Regarding claim 2, note that portion 33 is a part of the lid 24 as claimed.

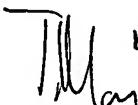

Regarding claim 4, note the holes 62 in the hooks in Fig 19.
